

FAUZI NOORSYABANI

AI Engineer • LLM Integration & Applied AI Product Development

Tasikmalaya, Indonesia | fauzinoorsyabani05@gmail.com | +62 813-1064-1534 | linkedin.com/in/fauzinoorsyabani | fauzinoorsyabani.web.id

PROFESSIONAL SUMMARY

AI Engineer and final-year Information Systems graduate with hands-on experience shipping AI-powered products end-to-end — from data preparation to deployed MVP. Combines applied LLM integration (OpenAI, IBM Granite, LangChain, RAG pipelines) with a strong backend and data foundation (PHP/Laravel, FastAPI, MySQL/PostgreSQL, star-schema data warehousing). Led a 5-member team through a 900+ hour AI product-development capstone and shipped production systems solo for real clients. AWS Cloud Practitioner certified, BNSP-certified ICT Project Manager.

TECHNICAL SKILLS

AI & LLM	OpenAI API (GPT-4, Whisper), IBM Granite, Gemini API, LangChain, LangGraph, RAG, Prompt Engineering
Backend	PHP (Laravel, MVC, REST API), Python (FastAPI, Flask), Node.js (basic)
Database	MySQL, PostgreSQL, ChromaDB (vector store), Redis
Frontend	React.js (Vite, hooks), JavaScript ES6+, TypeScript (basic), Tailwind CSS
Data & BI	Pandas, NumPy, Scikit-learn, Power BI, Looker Studio, star-schema / dimensional modeling, ARIMA, K-Means
Cloud & DevOps	AWS (EC2, S3, Lambda — Cloud Practitioner), Docker, Nginx, GitHub Actions CI/CD
AI Dev Tools	Cursor, Claude Code — daily drivers for AI-assisted development

EXPERIENCE

AI Engineer — Pijak × IBM SkillsBuild (Capstone Program) Feb – Jul 2026

- Led a 5-member cross-functional team (PJK-GM041) to design, build, and deploy PolaStok, an AI-powered inventory forecasting platform for Indonesian SMEs, across 900+ hours of structured product-development training.
- Owned delivery end-to-end: data preparation, model integration, and MVP deployment; applied LLM orchestration and prompt engineering for stock prediction and recommendation features.

Full Stack Web Developer — RA Al-Fathunnisa & CV. Putra AR Mar – Dec 2024

- Shipped production web applications solo for two real clients (education and F&B sectors): PHP/Laravel + MySQL backend, React/JS frontend.
- Set up GitHub Actions CI/CD pipelines for automated, zero-downtime deployments; reduced manual administrative processes by 50% through workflow automation.

2025

Sep 2025 –

Feb 2026

- Led an end-to-end analytics project covering 97 academic programs across 11 universities; built regression models and interactive dashboards (Python, Pandas, Power BI, Looker Studio), improving policy insight accuracy by 35%.

- Selected as Campus Lead for a global Google program; led outreach reaching 1,000+ students through workshops, digital campaigns, and hands-on tech demos.

PolaStok — AI-Powered Inventory Forecasting Platform — *Team Lead | Python · ML · Generative AI · Full-Stack* |

2026

- Demand prediction, stock anomaly detection, and AI-generated reorder recommendations for Indonesian SMEs; integrated time-series forecasting with generative AI for natural-language insights.

2025

- FastAPI backend integrating OpenAI Whisper and GPT-4 at <2s latency for real-time transcription; designed reusable AI Skills (summarization, ICD-10 suggestion, medication extraction) as modular LangChain chains; containerized and deployed on AWS EC2.

2025

- RAG pipeline enabling semantic search over 500+ pages of lecture notes with source citation; FastAPI streaming microservice with a Streamlit chat UI and conversation memory.

2025

- Processed 838,566 employee reviews through a multi-step pipeline: cleaning → LLM classification (IBM Granite) → auto-summarization → executive recommendations.

2026

2025 –

- Designed a star-schema data warehouse over national higher-education data (PDDikti), analyzing lecturer-to-student ratios across 35 study programs and 5 reporting periods; converted into a peer-reviewed manuscript (JITET).

Bachelor of Information Systems — Universitas Siliwangi, Tasikmalaya

Aug 2022 – 2026 | GPA: 3.87 / 4.00 (Cumlaude)

- Relevant coursework: Data Structures & Algorithms, Database Systems, Software Engineering, Machine Learning, Business Intelligence, IT Project Management.

- AWS Certified Cloud Practitioner — Amazon Web Services, 2024

- ICT Project Manager — BNSP (National Professional Certification), 2024

- Microsoft Office Specialist: Excel Associate — Microsoft, 2024

- Juara 1 — Life After DDC Challenge, Dicoding Developer Conference 2026 (AI for Cloud Infra & DevOps track)

- Juara 1 — MyBDDInsight Challenge, Badan Ekraf Developer Day 2025

- Gold Medalist — Mathematics, KSPI (Kompetisi Sains Mahasiswa Nasional Indonesia), 2024
